

## Roundtable Discussion

1:40-2:40 PM

Purpose: To engage in conversation with colleagues about a topic of interest/complexity in your work and expand your thinking.

Process:

1. If your group is larger than 10 people, break up into groups of 5-8 (1-2 mins)
2. Do quick introductions: (1 min or less per person--6-10 mins)
  - a. Who are you/why did you chose this topic?

3. Discuss and explore resources (40 mins)

**Note:** *You can choose to do this however you wish as a small group though ideally with consideration to the reasons for being at this topic. Staying together might make sense; 2 small groups might make sense; pairs might make sense.*

- a. Look at resources from your colleagues (from our last activity)
  - b. Use the GSP website ([www.greatschoolspartnership.org](http://www.greatschoolspartnership.org))
  - c. Review dimensions from Global Best Practices ([www.greatschoolspartnership.org](http://www.greatschoolspartnership.org)-->Resources→ Global Best Practices)
  - d. Anything else you know of or want to look for
4. Moving forward (10 mins)
    - a. Reconvene in one small group of 5-9.
    - b. Do a whip around to share 1 insight, next step or new question
