

New Hampshire LIS In-State
Meeting + School Visit
Manchester School of Technology
February 1, 2019

We will learn from and with each other as we consider a central question: **How can we continuously improve our practice to meet the needs of all students?** Throughout the day, participants will engage in classroom visits, professional learning, and thoughtful conversation leading to action and innovation in the classroom. You will also get the opportunity to get feedback on a piece of work or problem of practice.

Goals:

- Deepen my professional network within the League of Innovative Schools by learning with and from colleagues.
- Engage in Professional Learning Group conversations specifically focused on providing presenters from different schools with feedback, ideas, and resources.
- Share resources and give and receive feedback on a problem of practice
